Abhishek Pawar

Senior UI/UX Designer & Product Design Specialist

Mail Id: abhishekpawar.designs@gmail.com **Portfolio:** https://abhishekpawar.vercel.app/ **Contact:** 8179830927

Summary

Senior UI/UX Designer with 7+ years of experience designing end-to-end B2B & B2C products across E-Commerce, Healthcare, Enterprise Software, Ed-tech, and Travel. Proven track record of bridging user research with business strategy, building scalable design systems, and leveraging AI-assisted workflows to accelerate product delivery.

Experience

Tech Mahindra - Microsoft / Sr. UI/UX Designer

Jan 26 - Sep 26 (Full Time)

Redesigned the navigation and core seller experience for Microsoft Commerce Insights, including designing AI Copilot flows to automate complex data searches.

Built interactive prototypes to test workflows with product and engineering teams, and ran a comprehensive UX audit for the MSCD self-serve platform.

Integrated AI tools into design workflows, cutting design execution effort by 30–40% and speeding up iteration cycles by 25%.

Trackmind / Sr. UI/UX Designer

Feb 25 - Jan 26 (Full Time)

Led the 0-to-1 design of a clinical web dashboard, setting up workflows and component systems for practitioners managing end-to-end maternal care plans.

Designed an AI mobile app for clients to log daily health routines and follow personalized care regimens.

Revamped the pre-onboarding questionnaire flow from scratch, cutting client intake time by 25% across platforms.

Hownow / Product Designer

Aug 24 - Jan 25 (Contract)

Created a universal search with category and community filters, speeding up course discovery by 35%.

Mapped the user journeys and wire-framed a manager evaluation flow, making post-course feedback smooth and structured for both sides.

Hyno Technologies & Co / UI/UX Designer

Oct 22 - Aug 24 (Full Time)

Education

Geethanjali College of Engineering and Technology

Bachelors in Computer Science

Jun 2013 – Jun 2017

Leapfrog

UX/UI Design Bootcamp

Jun 2018 – Oct 2018

Skills

Core Design

Product Architecture
Interaction Design
Visual Design
Information Architecture
Wireframing
Interactive Prototyping

Research & Strategy

User Research
Usability Testing
Heuristic Evaluation
Customer Journey Mapping
Design Thinking
Accessibility (WCAG)

Systems & Scale

Design Systems & Governance, Token Architecture, Data-Driven Design, AI-Assisted Workflows

Redesigned core B2B hiring flows and dashboards, cutting candidate time-to-hire by 58% across the platform.

Built the initial concept and booking flows for an educational trip marketplace, letting schools compare and book local camps, museum tours, and guides in one place.

Shipped interactive components and layout patterns that drove a 60% bump in platform engagement.

eAbyas Info Solutions / UI/UX Designer

Jul 20 – Oct 22 (Full Time)

Redesigned the MHOW Indian Army website from scratch, updating the structure and overall visual style.

Handled day-to-day graphic design and interface screens across multiple client web projects.

BilwamIndia Technologies Pvt. Ltd

/ UI/UX Designer

Jul 18 – Jul 20 (Full Time)

Interviewed internal stakeholders and users to find drop-off points, then restructured the company website navigation using card sorting to present services clearly.

Redesigned the cab service mobile app to make it responsive, lightweight, and easy to use across Android and iOS.

Overhauled a travel and tour web app, fixing responsive layouts and booking screens across mobile and desktop.
